The police of the city of Richmond, If, the reports of their actions and doings that have been published in the papers are anything like true, are a disgrace to the city and are in a large degree responsible for the lawlessness that has disturbed its peace and repose and for the conditions that converted the capital of the State into an armed camp to preserve order and uphold the majesty and dignity of the law.

The official record of the court of inquiry in the Martin-Brauer case has been filed. Like the other, however, it has not yet been passed upon by Colone Anderson, and is not made public. There is reason to believe, however, that the statement yesterday, to the effect that the court vindicated Captain Martin, is correct.

The Coditions Yesterday.

Of any great disorder yesterday there was none. In two or three cases, however, trouble broke out, and in two in-

or any grant day or three cases, however, trouble broke out, and in two instances men were painfully hurt.
Several cars of the Broad Street line were pelied with stones at Seventeenth and Broad Streets during the ovening. The rocks came from a saloon near the spot. One motorman was hit, and though not seriously, was painfully injured. More stone-throwing occurred on the Fairmount line just outside the city limits. Some small damage was done. The trouble occurred on Twenty-third Street.

Barton Heights came to the surface again, though there was no very serious trouble. Soldiers have been there for a day or two keeping a watch on things, but have not succeeded in locating any of the disturbers of the peace. Last night, as stated above, a car was fired upon, but it did not stop, and nobody was caught. A few torpedoes were placed on the track at different points.

In Manchester, so far as is known, a state of quiet prevailed. No trouble is reported from any point. The Seven Pines line in Henrice, and the River View line were also reported quiet. In fact, reports at midnight were to the effect that the three incidents already noted are the only ones the day produced. The comparative quiet which has prevailed, not withstanding the departure of the solders was again a marked feature of the withstanding the departure of the solders was again a marked feature of the

The greatest interest was taken turned the day in the legal proceedings growing out of the strike. In the Poice Court the seven men charged with complicity in the Fulton affair of Wednesday night were given a hearing and three of them—Redford, Catroll and Wolfert—were disfixed the Solomon case for the 27th

The Strike Itself.

The matter of chief note in connection with the strike itself is the return of the strikers to work in numbers gradually increasing. Some time ago ane man broke away; days passed and still he stood alone; then in ones and twos others began to come until there were some six or seven in all. Yesterday an unusually large number of hames were added to the little last and it was and is positively rumored that more are on the way.

Naturally, arising from this state of things is the question now being pondered by many—is it the beginning of the end? Officials of the company do not manifest any keen desire to discuss the matter of the return of their former employes, but there is everywhere the suggstion that it has been approached by many of them and that the return of a number of others will be announced in the course of a few days. Several persons heard to express

that the return of a number of others will be announced in the course of a few days. Several persons heard to express themselves yesterday were of opinion that before many hours there would be something like a stampede in the direction of the company. Every hour makes the chance of the men for gitting back more remote. The company needs 450 men; yesterday afternoon it had 285 resular men employed and about 30 strike-breakers. About thirty new men werstaken on Thursday and almost as many yesterday. At this rate a week more will see the list closed and the opportunity of the striker to get back lost.

The company is choosing its men with care and is gradually getting everything straightened out. On Sunday there will be a general rearrangement, the assignment of men to permanent runs and so on. A number of new employes have getten the regulation uniform and by next week practically all will have them. This will improve the appearance of the cars very much. As soon as this straightening out can be accomplished strict disculine will be enforced again and there will be no further cause for the complaints against some of the days.

burg, 2; Richmond and Petersburg, 1. The vacancies for regular runs have been filled and the men now being taken on, including the strikers, are for the "swings."

In connection with the plans of the company, it was reported yesterday that an effort will be made, to get rid of the loop running from First and Broad around Oregon Hill and back to First and Broad. This loop, which is not in operation since the strike began, was laid before the consolidation, when the two companies were fighting each other flercely, and there is now really no necessity for it. The Laurel Street line covers the territory. If the needed permission is obtained the tracks will be pulled up and the Hollywood-Oakwood line will be operated as it is being operated now-laurel to Broad, to Eighth, to Main, to Fightenth, to Venable, to Oakwood. It is probable that there will also be a rearrangement of the Broad-Main Street service. Other rumors are to the effect that the mule cars will be run over the Mayo's bridge again.

The Strikers' Side.

The Strikers' Side.

The Strikers' Side.

From the point of view of the strikers fibere is no special change in the situation. Another meeting was held last night, but he special business was transacted. Vigorous ienial is made by President Griggs of the rumor that there is a split in the division, and that many of the men want to go back to work. Several have returned, but the great mass of the men, Mr. Griggs declares, are sticking together, and show no signs of faltering. They still feel that they have the best of the fight, and have no idea of return.

BOOK STORM OF THE ception of those who have gone back and possibly one o rtwo others, are solid. Speaking of the Fulton affair, Mr. Griggs expressed pleasure at the discharge of Messrs. Redford, Carroll and Walpert. He declared in no uncertain terms that the division would not stand for any such work as was begun Wednesday night, "If any man in this union," he said, "goes out and violates the law, we want to see him arrested and punished severely."

President Griggs will make a report about the matter this morning, and there may be some interesting developments to follow. The automobile scheme is said to be coming along nicely. The announcement that a meeting was to be held to-night was a mistake. Due notice of the meeting will be given when teh time for it is fixed.

Charles Stern was a wretched-looking object when he stood before Judge McMahon in Part I of General Sessions yesterday. He is but thirty years old, but seemed more than forty. There was a hunted look in his eyes, and

He made handsome profits, but became badly involved in speculative transactions, and on March 18, 1896, fled from the city, taking with him all the funds of his depositors. He went to Hallfax, was arrested and released, but turned over \$12,000 to J. W. Chandler, of Hallfax, as trustee, instructing him to repay the money to those he had robbed.

Then he started off on a tramping trip,

which took him into nearly every State in the Union, to Europe, Asia, Africa and

"But nowhere," said the man yester-day, "could I get rest or pence of mind. The enormity of my sine seemed to grow larger and heavier every day. To-day, standing in this court, waiting for the judge to pass sentence on me, I feel happier than I have in years.

Stern has been in the Tombs since his veluntary surrender on July 5th. Since then the police have been trying to find the five complainants on whose evidence he was indicted. Only one could be found, however-Max Berman, of No. 22 Pike Street. Berman's claim was for \$250. When Berman was found Stern wrote to Mr. Chandler, trustee of the stolen money, in Hallfax, and Mr. Chandler sent him \$100, which he turned over to Berman. Charles H. Smith, a lawyer of Hallfax, who defended Stern at the time of his arrest in that city, was in court yesterday and made a plea for clemency. Berman was also in court, and he asked for elemency for the man.

Lawyer Smith said that Stern had shown the keenest sorrow for his misdeeds, and that his only anxiety was that all of

Stern, in a trembling voice, addressed the court in his own behalf, saying:

"I have found that dishonesty does not pay. It brought me mirest of mind and unrest of spirit which drove me all over the world. All that I could think of was that I was a fugitive. All that I want is to restore myself in my own self-respect, and then I will be able to win my way in the world again."

Judge McMahon granted the request for elemency and paroled Stern in the custedy of Agent Kimball, of the Prison Ald Arsociation.

Claims aggregating \$3,000 have been paid by Mr. Chandler out of the trustee fund given him by Stern.

Stern will apply to some of his former friends, of whom he had a great many, for work.
